

Sambabo Caafimaad qaba

Waa Adigoo Caafimaad Qaba

Kansarka sambabada badanaa ma muujiyo wax astaamo ah bilowga

Taasi waa sababta NHS ay Baaritaanka Kansarka Sambabada ee Bilaashka ah u siiso dadka da'doodu u dhaxayso 55-74 kuwaas oo sigaar caba ama cabi jiray sigaar, isla markaana dareemaya caafimaad.*

Waxaad heli doontaa warqad lagugu casuumayo ballan qabsasho.

Sugo warqaddaada casumaadda. Baaritaan fudud oo la sameeyo maanta ayaa sambabadaada ilaalin kara mustaqbalka.

*Dadka ka diiwaangashan GP ee ku nool Barnet, Camden, Enfield, Haringey, ama Islington

Astaamahan waxay calaamad u noqon karaan kansarka sambabada

Hargab soconaya ilaa
3 usbuuc ama ka badan

Neef-yeri Xabad xanuun

Qufac dhiig leh

Daal aan sabab lahayn ama

Miisaanka oo luma

Haddii aad isku aragto wax ka mid ah arrimahaas, **la hadal GP-gaaga** kaas oo kaa caawin kara in lagu baaro.

In la ogaado kansarka sambabada xilli hore
waxay ka dhigi kartaa daawaynta mid aad u
waxtar badan.
